FLOATING WORLD Golden Wallpaper: Hover above the mysterious land of ancient Japan with FLOATING WORLD, a pattern depicting daily village life among majestic curved roofs, tree sprouting fluffy blossom and a backdrop of rugged mountains. Take tea, draw your sword or gather for music in illustrative vignettes which hang weightless in the sky, creating a lively community designed to spread across walls of any size. Each building or activity is nestled into in opulent gold or moody mid-toned blue clouds for the most enchanting of expeditions to the east.

GARDENS OF JAIPUR Wallpaper: Get lost in the sprawling gardens of Rajasthan in our bucolic GARDENS OF JAIPUR design, but keep your wits about you – these grounds are teeming with life, and you'll spot prowling leopards, leaping deer, strutting peacocks and relaxing cows. Plant life is vast and varied, with trees, flowers and grasses illustrated in exquisite detail down to every leaf, and buildings in the city's famous soft pink shade blend with the garden's natural tones for a wallpaper that whisks you away to an utterly whimsical world.

HOPi SPIRIT Wallpaper: Journey across the newly discovered country of America to the heat-soaked plains of Arizona to observe the beguiling customs and traditional ceremonies of the Indigenous Hopi tribe. The HOPi SPIRIT pattern embraces age old rituals of the custodians of this ancient land in simple primary tones, with palms, spirit sticks and mounds of earth forming an almost linear pattern. Will you journey here during the day – with a backdrop of pale sand – or at night, on darkest black?

HORSE STABLE Wallpaper: Travel back to ancient China and join life in a far-flung stables with our HORSE STABLE wallpaper to find out what really goes on when the animals are at rest. Sit down with the grooms for a board game, run with the hounds, watch the falconer or take a nap – anything goes in this life-filled eastern enclave. Lines of powerful monochrome horses proudly show off their muscles and braided hair in their dusty, sand-coloured boxes, while the space between them is lined in time worn rich green, both beasts and walkway forming subtle stripes on the wall for a pattern filled with surprising narrative and energy.

INDIAN PALACE Wallpaper: An invitation for the most refined traveller – this Indian royal residence doesn't allow just anyone to cross its boundaries. Wander through the exquisite gardens while the heady scent of a thousand flowers and gentle sitar music floats on the breeze with the INDIAN PALACE wallpaper, evoking the sights, smells and soft pastel shades of regal Rajasthan. Admire ornate motifs winding around the walls, gaze in wonder at colourful birds that dive through the air and brush your hands through cool water features as life continues throughout in this elegant print.

SAMURAI AND GEISHA Wallpaper: Intermingling historic Japanese characters who emerge from a night time forest, vivaciously adorned in wildly patterned, flowing kimonos and traditional costumes. The artful drape of the fabric bringing decoration and movement onto the walls. From floral and nature inspired designs to geometric graphics and everything in between, each person is bedecked in an outfit worthy of most revered stylist, which in turn embellish the wall with their audacious patterns. Standing tall surrounded by swaying trees, sprawling flowers and striking wild animals, the prestigious figures shine brightly on a background of deep midnight blue.

SPIRITURAL JOURNEY Wallpaper: Step in a little closer – from far off our SPIRITURAL JOURNEY wallpaper may seem like an abstract squiggle pattern, but on closer inspection you'll discover a host of hand drawn characters living life on a pale beige background among daubs of colour. Floating like smoke or mist, a rusty, orange tone navigates its way around people, plants, animals, clouds and calligraphy, all of which are illustrated as simple line drawings in ancient Chinese style. Take time to roam every inch and immerse yourself in a multitude of stories artfully entwined into each other, and waiting to be discovered.

THE FORMER EMPEROR Metallic Edition Wallpaper: Ride ferocious waves with the most intrepid of sea farers – but make sure you hold on tight; a storm is brewing. Paying homage to Japanese woodblock prints of waves popular in the 1800s, THE FORMER EMPEROR tells the story of a ruler fleeing into the night followed by a flotilla of small wooden boats, all of which traverse a powerfully rough ocean guided only by glowing red paper lanterns. Designed in traditional woodblock print style, each wave, crest and swell are classically simplistic, with the frothy foam sharply picked out in bright white and the water becoming linear blue curves, with details highlighted in gleaming metallics.

Top row: Kalamkari in Angora, Kalamkari in Citrus, Kalamkari in Jade, Bottom row: tribal Ikat in Angora, Tribal Ikat in Lava and Tribal Ikat in Myrtle.

KALAMKARI Wallpaper: Roll up your sleeves and try your hand at the art of Kalamkari block printing, a technique native to Persia and India. Inspired by the colours of natural dyes, our KALAMKARI wallpaper comes in vibrant Citrus yellow, neutral tone Angora and soft green Jade, each simple pattern interspersed with pale shades and created to complement other designs in The Curator's Cabinet collection. With a humble, handmade feel, the rounded shapes and gentle floral detailing almost become a plain when used across large areas, a quietly decorative print that takes one a distinctly eastern personality the closer you examine it.

TRIBAL IKAT Wallpaper: Summon the creative history of South East Asia, South America and West Africa with our TRIBAL IKAT wallpaper, our take on a traditional pattern found in ancient civilisations throughout the world. Our interpretation is simplified, a linear pattern creating stripes with vertical lines, and with circular eyes which meet horizontally. Available in warm Lava Red, natural Myrtle green and soft neutral Angora, the pattern is an expressive, travel-inspired single colour paper, and has also been created and coloured to complement designs throughout global-theme of The Curator's Cabinet collection.
